Precautions MAINTENANCE

When the following situations occur, the machine needs to be cleaned
1. Prepare to switch to another essential oil for use.
2. The atomization effect has become less and less obvious over time.

Cleaning steps
1. Pull out the atomizer head and unscrew the bottle
2. Put an appropriate amount of alcohol in an essential oil bottle and place it on the device for atomization for 5 to 10 minutes, then let it absorb the odors.
3. After it has dried, the cleaning process is completed.
