**Product Parameters**

Brand: HYAROMA	Model: H-G1000
Voltage/power: DC12V1A/13W	Noise: < 35db
Capacity: 500ml/800ml	Atomization volume: 5g±0.5g
Atomization: Two-fluid atomization	Installation method: Lay/Wall
Material: Metal, PP	Weight: 3.6kg
Size: W233 x D141 x H294mm	Scope: 1500m <sup>2</sup> /4000m <sup>3</sup>

**Product Introduction**

**I. Operating instructions**

1. Connect the power supply (must use a charger with DC12V output);
2. Power on: The machine will automatically turn on after being powered on, or press the power button for 2 seconds to turn on/off;
3. Use a mobile browser to scan the QR code in the manual to download and install the APP;
4. Open the APP to register and log in to your account;
5. Select either standalone (Bluetooth) mode or networked (WiFi) mode based on the supported features of the machine;
6. For detailed operations, refer to the product manual.

**II. APP control**

1. When the machine is turned on, Bluetooth is automatically enabled. Open the mobile APP to search for and connect to the device;
2. Bluetooth Reset: Quickly press the power button 3 times in succession. The machine's buzzer will emit a long "beep" sound, and the power button indicator light will flash red and blue alternately. The Bluetooth reset is complete;
3. Network Pairing: When the machine is turned on, quickly press the power button 3 times in succession. The machine's buzzer will emit a long "beep" sound, and the power button indicator light will flash red and blue alternately. The machine will enter pairing mode;
4. Open the APP on your phone (ensure Bluetooth and WiFi on the phone are turned on and that you are using a 2.4G WiFi network). Choose the network mode, click the "+" icon in the top right corner to add the machine, and follow the APP prompts to connect the device.

(\*For detailed operations, refer to the product's APP usage manual.)

**Precautions**  
**MAINTENANCE**

**When the following situations occur, the machine needs to be cleaned**  
1. Prepare to switch to another essential oil for use.  
2. The atomization effect has become less and less obvious over time.

**Cleaning steps**

1. Pull out the atomizer head and unscrew the bottle
2. Put an appropriate amount of alcohol in an essential oil bottle and place it on the device for atomization for 5 to 10 minutes, then let it absorb the odors.
3. After it has dried, the cleaning process is completed.

**A variety of best-selling fragrances**  
Natural extraction of plant essential oils  
**Pure Health Safety**  
Plant species extraction formula,  
innovative lingering fragrance type  
The fragrance lingers for a long time  
A perfect encounter with nature
