

900m³ H-G300

Medium-sized commercial aroma diffuser

Just one unit suffices to cover large-area aroma diffusion requirements

900m³ Coverage Area

Upgraded Two-Fluid Atomization Technology

Using high-pressure technology, essential oil liquids are quickly atomized into aromatic molecules. These tiny atomized particles allow the fragrance to spread rapidly throughout the room, creating a pleasant and non-cloying scent.

Intelligent Fragrance Dispensing System

– Enables rapid aroma diffusion even in large spaces

Fine Fragrance Dispersion, Long-Lasting Scent Retention

Hang & Lay

Freely Placeable in Large Spaces

(The machine comes with a wall-mount bracket. For detailed installation instructions, please refer to the user manual.)

Smart Bluetooth App Control

The machine supports **WiFi** networking and **Bluetooth** connection
Remote control, easy adjustment

(The APP can be downloaded by scanning the QR code in the instruction manual)

Connect To The Fresh Air System

One machine with multiple uses, providing a more efficient aromatherapy experience.

Providing a comfortable fragrance environment anytime, anywhere

Freshen the Environment, Restore Air Quality

suitable for 300m²/900m³ Spaces

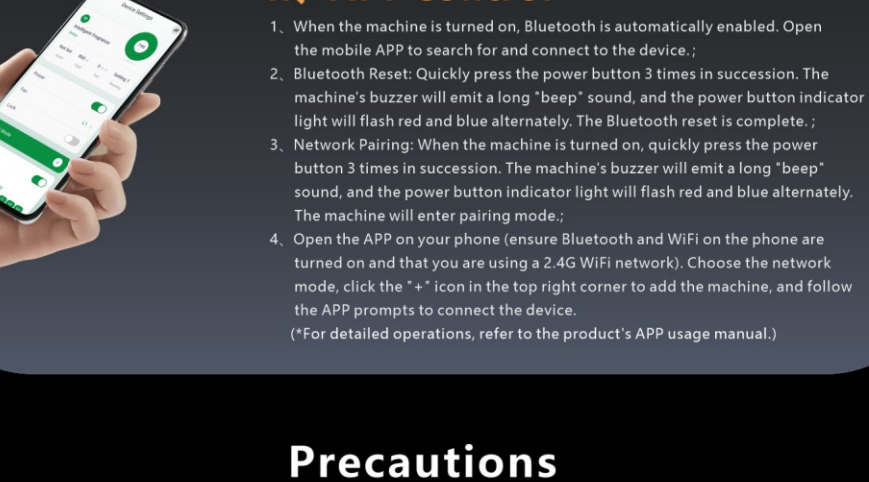

Product Parameters

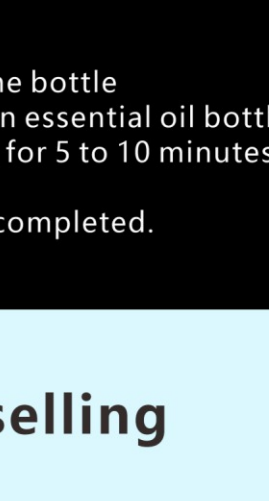

Brand: HYAROMA	Model: H-G300
Voltage/power: DC12V1A/8W	Noise: < 35db
Capacity: 200ml	Atomization volume: 2.5g±0.2g
Atomization: Two-fluid atomization	Installation method: Lay/Wall
Material: Metal, PP	Weight: 1.8kg
Size: W170xD96xH210mm	Scope: 300m ² /900m ³

Product Introduction

I. Operating instructions

1. Connect the power supply (must use a charger with DC12V output);
2. Power on: The machine will automatically turn on after being powered on, or press the power button for 2 seconds to turn on/off;
3. Use a mobile browser to scan the QR code in the manual to download and install the APP;
4. Open the APP to register and log in to your account;
5. Select either standalone (Bluetooth) mode or networked (WiFi) mode based on the supported features of the machine;
6. For detailed operations, refer to the product manual.

II. APP control

1. When the machine is turned on, Bluetooth is automatically enabled. Open the mobile APP to search for and connect to the device;
2. Bluetooth Reset: Quickly press the power button 3 times in succession. The machine's buzzer will emit a long "beep" sound, and the power button indicator light will flash red and blue alternately. The Bluetooth reset is complete;
3. Network Pairing: When the machine is turned on, quickly press the power button 3 times in succession. The machine's buzzer will emit a long "beep" sound, and the power button indicator light will flash red and blue alternately. The machine will enter pairing mode;
4. Open the APP on your phone (ensure Bluetooth and WiFi on the phone are turned on and that you are using a 2.4G WiFi network). Choose the network mode, click the "+" icon in the top right corner to add the machine, and follow the APP prompts to connect the device.

(*For detailed operations, refer to the product's APP usage manual.)

Precautions

MAINTENANCE

When the following situations occur, the machine needs to be cleaned

1. Prepare to switch to another essential oil for use.
2. The atomization effect has become less and less obvious over time.

Cleaning steps

1. Pull out the atomizer head and unscrew the bottle
2. Put an appropriate amount of alcohol in an essential oil bottle and place it on the device for atomization for 5 to 10 minutes, then let it absorb the odors.
3. After it has dried, the cleaning process is completed.
