PRODUCT PARAMETERS

Brand: HYAROMA

Model: H-B202

Voltage/power: DC12V1A/12W

Noise: < 35db

Capacity: 500ml/800ml

Atomization volume: 6g±0.6g

Atomization: Two-fluid atomization

Installation method: Lay

Material: Metal, PP

Weight: 4.2kg

Size: W130 x D200 x H607mm

Scope: 2000m²/5000m³

Product Instruction Manual

I. Operating instructions

1. Connect the power supply (must use a charger with DC12V output);
2. Power on: The machine will automatically turn on after being powered on, or press the power button for 2 seconds to turn on/off;
3. Use a mobile browser to scan the QR code in the manual to download and install the APP;
4. Open the APP to register and log in to your account;
5. Select either standalone (Bluetooth) mode or networked (WiFi) mode based on the supported features of the machine;
6. For detailed operations, refer to the product manual.

II. APP control

1. When the machine is turned on, Bluetooth is automatically enabled. Open the mobile APP to search for and connect to the device;
2. Bluetooth Reset: Quickly press the power button 3 times in succession. The machine's buzzer will emit a long "beep" sound, and the power button indicator light will flash red and blue alternately. The Bluetooth reset is complete;
3. Network Pairing: When the machine is turned on, quickly press the power button 3 times in succession. The machine's buzzer will emit a long "beep" sound, and the power button indicator light will flash red and blue alternately. The machine will enter pairing mode;
4. Open the APP on your phone (ensure Bluetooth and WiFi on the phone are turned on and that you are using a 2.4G WiFi network). Choose the network mode, click the "+" icon in the top right corner to add the machine, and follow the APP prompts to connect the device.

(*For detailed operations, refer to the product's APP usage manual.)

Precautions
MAINTENANCE

When the following situations occur, the machine needs to be cleaned

1. Prepare to switch to another essential oil for use.
2. The atomization effect has become less and less obvious over time.

Cleaning steps

1. Pull out the atomizer head and unscrew the bottle
2. Put an appropriate amount of alcohol in an essential oil bottle and place it on the device for atomization for 5 to 10 minutes, then let it absorb the odors.
3. After it has dried, the cleaning process is completed.
