

H-B200

Vertical Intelligent Fragrance Machine

- Seiko aluminum alloy
- Silent design
- Intelligent interaction

The second-generation nano-atomization technology has been newly upgraded

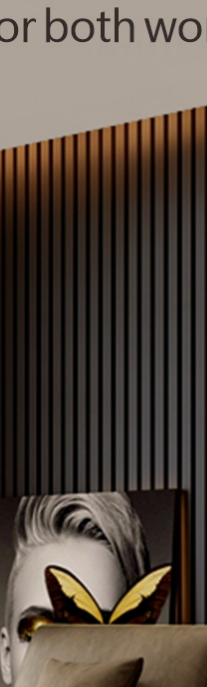

产品特点

Product features

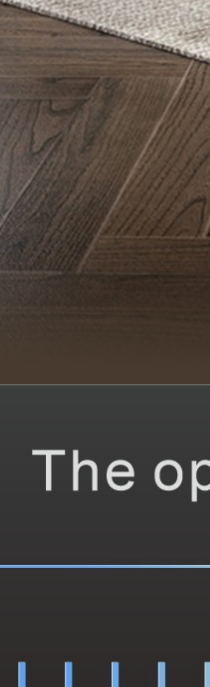

Nanoparticles

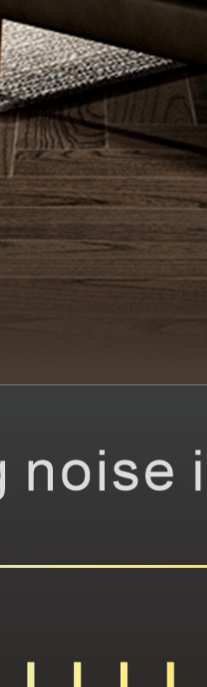

wide coverage

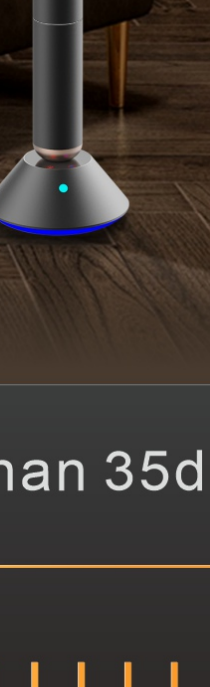

Long battery life

Super quiet

High-quality aluminium alloy

Multiple scenarios

Upgrade to the second -generation nano-atomization

Fast diffusion
long-lasting fragrance

Applicable to 350m²/1000m³ Space

Silent operation

Working operation noise < 35db

Satisfy the pickiness of those who are sensitive to sound
It is suitable for both working and resting

The operating noise is less than 35db

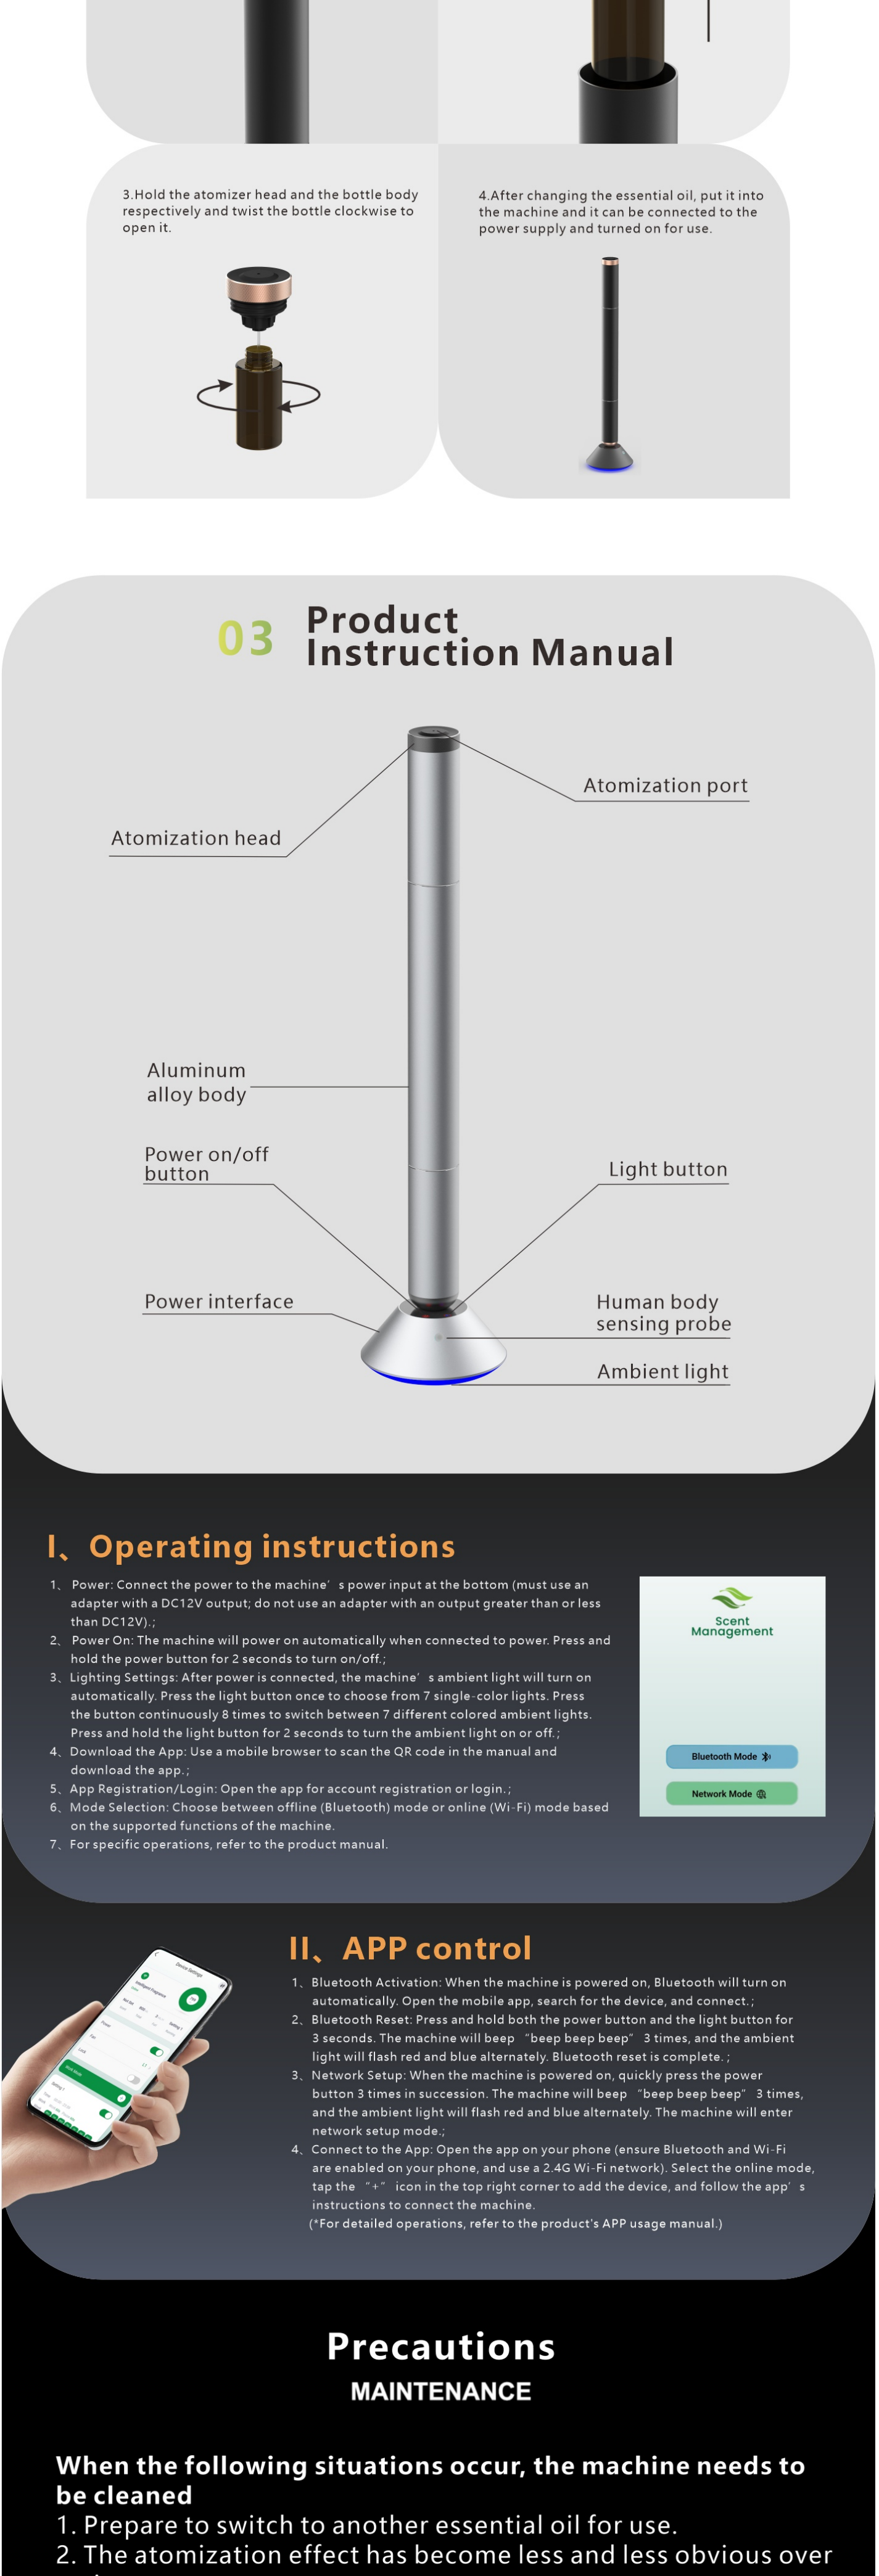

以上数据来源于东莞市汇悦环保科技有限公司测试得出，最终解释权归汇悦环保科技有限公司所有。

Smart Bluetooth App Control

The machine supports
WIFI networking and Bluetooth connection
Remote control, easy adjustment

(The APP can be downloaded by scanning the QR code in the instruction manual)

The second-generation cold atomization technology

Exclusive patent, fine atomization

Seiko

PRODUCT PARAMETERS

Brand: HYAROMA	Model: H-B200L
Voltage/power: DC12V1A/4.5W	Noise: < 35db
Capacity: 150ml	Atomization volume: 2.5g±0.2g
Atomization: Two-fluid atomization	Installation method: lay
Material: Aluminum alloy, PP	Weight: 3.2kg
Size: W70xD200xH904mm	Scope: 350m ² /1000m ³

Two-color aluminum alloy

Multi-color matching is available
and custom colors are supported

Installation steps

Lay

Place it on the ground, connect the power supply, press the power button, and turn it on for use.

01

02

Method for changing essential oils

1. Pinch the top metal cover with your hand and rotate it to open the top cover.

2. Lift the atomizing head

3. Hold the atomizer head and the bottle body respectively and twist the bottle clockwise to open it.

4. After changing the essential oil, put it into the machine and it can be connected to the power supply and turned on for use.

03 Product Instruction Manual

I. Operating instructions

- Power: Connect the power to the machine's power input at the bottom (must use an adapter with a DC12V output; do not use an adapter with an output greater than or less than DC12V).
- Power On: The machine will power on automatically when connected to power. Press and hold the power button for 2 seconds to turn on/off.
- Lighting Settings: After power is connected, the machine's ambient light will turn on automatically. Press the light button once to choose from 7 single color lights. Press the button continuously 8 times to switch between 7 different colored ambient lights. Press and hold the light button for 2 seconds to turn the ambient light on or off.
- Download the App: Use a mobile browser to scan the QR code in the manual and download the app.
- App Registration/Login: Open the app for account registration or login.
- Mode Selection: Choose between offline (Bluetooth) mode or online (Wi-Fi) mode based on the supported functions of the machine.
- For specific operations, refer to the product manual.

II. APP control

- Bluetooth Activation: When the machine is powered on, Bluetooth will turn on automatically. Open the mobile app, search for the device and connect.
- Bluetooth Reset: Press and hold both the power button and the light button for 3 seconds. The machine will beep "beep beep beep" 3 times, and the ambient light will flash red and blue alternately. Bluetooth reset is complete.
- Network Setup: When the machine is powered on, quickly press the power button 3 times in succession. The machine will beep "beep beep beep" 3 times, and the ambient light will flash red and blue alternately. The machine will enter network setup mode.
- Connect to the App: Open the app on your phone (ensure Bluetooth and Wi-Fi are enabled on your phone, and use a 2.4G Wi-Fi network). Select the online mode, tap the "+" icon in the top right corner to add the device, and follow the app's instructions to connect the machine. (*For detailed operations, refer to the product's APP usage manual.)

Precautions

MAINTENANCE

When the following situations occur, the machine needs to be cleaned

- Prepare to switch to another essential oil for use.
- The atomization effect has become less and less obvious over time.

Cleaning steps

- Pull out the atomizer head and unscrew the bottle.
- Put an appropriate amount of alcohol in an essential oil bottle and place it on the device for atomization for 5 to 10 minutes, then let it absorb the odors.
- After it has dried, the cleaning process is completed.
