

H-B200

Intelligent fragrance machine

- Seiko aluminum alloy
- Silent design
- Intelligent interaction

The second-generation nano-atomization technology has been newly upgraded

Product features

Nanoparticles

wide coverage

Long battery life

Super quiet

Anti-oil leakage design

Multiple scenarios

Upgrade to the second-generation nano-atomization

Fast diffusion
long-lasting fragrance
Nanometer | Uniform | Easy to spread

Silent operation

The operating noise <30db

Satisfy the pickiness of those who are sensitive to sound
It is suitable for both working and resting

Intelligent interaction via mobile phone Bluetooth app

Timed, quantified Settings
Button, Bluetooth Settings

360° essential oil leak-proof design

Exclusive patent
we are more professional

Ultra-long battery life

It is equipped with a 4000mAh large battery
Long-lasting fragrance

Made of high-quality precision aluminum alloy

多场景使用

SCENARIOS

Product parameters

Brand: HYAROMA	Model: H-B200
Voltage/power: DC5V1A/1.5W	Noise: <30db
Capacity: 150ml	Atomization volume: 0.8g±0.2g
Atomization: Two-fluid atomization	Installation method: lay
Material: Aluminum alloy	Weight: 1.0kg
Size: W70xD100xH284mm	Scope: 80m ² /240m ³

Two-color aluminum alloy

Multi-color matching is available
and custom colors are supported

black
Rose gold

Bright silver
black

安装步骤

Product Instruction Manual

Introduction to the Control Panel

1. Connect to the power supply (a charger with a dc5v output must be used; do not use a mobile phone fast charger for power supply) []
2. power on: Press and hold the power button for 2 seconds to turn on/off []
3. Gear: Click the gear key to switch gears in a loop (1st-2nd-3rd), with one light on for each gear. Two lights are on in the second gear, and three lights are on in the third gear.
4. Timing: The motor timing key controls the machine's operating time, which is switched in sequence (2H-4H-8H). Select 2H, the corresponding indicator light will light up; select 4H, the corresponding indicator light will light up; select 8H, the corresponding indicator light will light up.

Bluetooth app control

1. Connect the power supply. Open the mobile phone APP to connect the device. After the Bluetooth connection is successful, the Bluetooth indicator light will remain on constantly.
2. When connected via Bluetooth, press and hold the Timer key for 2 seconds to switch to the key mode;
3. To restore the factory password: In the off state → Press the gear and timer keys simultaneously for 2 seconds → The buzzer will ring two times → The Bluetooth reset is complete.

Precautions

MAINTENANCE

When the following situations occur, the machine needs to be cleaned

1. Prepare to switch to another essential oil for use.
 2. The atomization effect has become less and less obvious over time.
- Cleaning steps**
1. Pull out the atomizer head and unscrew the bottle
 2. Put an appropriate amount of alcohol in an essential oil bottle and place it on the device for atomization for 5 to 10 minutes, then let it absorb the odors.
 3. After it has dried, the cleaning process is completed.

A variety of best-selling fragrances

Natural extraction of plant essential oils

Pure Health Safety

Plant species extraction formula,
innovative lingering fragrance type
The fragrance lingers for a long time
A perfect encounter with nature
